-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The Examiner has carefully considered Applicant's amendments and accompanying remarks filed on 01/24/05. Applicant has amended claims 11 and 12 and added new claim 21, which does not further limit claim 11 and needs to be withdrawn. Applicant's amendments to Claims 11 and 12 overcome the 112-2 rejection made in the previous office action in paragraphs 3 and 4. The rejection in paragraph 7 under 103 (a) is maintained and restated below (there appears to be a typo and it states that the rejection was anticipatory, but in actuality it was a 103(a) obviousness type rejection).

Response to Arguments

2. Applicant's arguments filed 01/24/05 have been fully considered but they are not persuasive. Applicant main traversal is that their crystalline/amorphous particles do not penetrate the yarns as taught by Dischler and that their particle are only found within the interstices of the warp and weft. This traversal is not commensurate in scope, as Applicant does not claim that their particles are only found within the spaces and nowhere else. Furthermore, it could also be argued that even if the particles of Dischler are the yarn it is very possible that they too could just be present where they fall into the opening or are positioned on the outside of the yarn so that when woven they just so happen to lie where there is a gap or space in the weave thereby meeting the requirement of being present between the warp and weft of the fabric.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 1771

4. Claims 11, 2-10 and 19-20 rejected under 35 U.S.C. 103(a) as being unpatentable over Discler as cited in the previous office action in paragraph 7.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

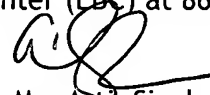

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
